

# INTERNATIONAL BUSINESS TRAVELLER TRAINING COURSE

## COURSE OVERVIEW/BENEFITS

This innovative course is essential for anyone planning to travel remotely or overseas on business, pleasure, or transiting through any given area. It has been developed in response to business travel needs, global security terror threats, natural disasters, and the need for team travellers to have a better understanding of overseas risk.

The course will take delegates through some very tough decision-making processes and will highlight the importance of effective communication and teamwork through all levels travel and when faced with a security or health incident.

Delegates will benefit from being submerged into high-risk security environments through a series of simulated exercises. On completion all delegates will have a better understanding of the many security risks that may emerge at short notice and will feel better equipped to deal with any given scenario.

## TARGET AUDIENCE

International School Executives, Teachers or anyone travelling on behalf of the school to any international destination. Teachers on any international exchange programme.

School and agency staff responsible for the planning, preparation and management of any international school travel or remote excursion.
